## Why Temperance Men are for Stanley.

Our Stanton correspondent takes us to task for not supporting Mr. Beckham for U. S. Senator over Mr. Stanley, so we will state our position clearly:

In the first place we wish to state that we regard Mr. Beckham as one of the greatest Governors Kentucky ever had, and his defeat for U. S. Senator through the treachery of the whiskey element of the Democrats at Frankfort six years ago, is deeply deplored by us, but when he accepted a fee of \$800 per year, as he says, to represent the L. & N. railroad against his people, we parted faith with him. It is undisputed but that the L. & N. railroad aided in the murder of his running mate—Governor Goebel, and this is why we hold it against him. The circumstances rather than his serving the railroad as an attorney is the bad part of it.

Another reason why we are opposing Mr. Beckham is the fact that he is accredited as being a man of great intemperance, in fact he is said to be a hard drinker. This being true, his advocacy of temperance shows bad faith, and his attitude must have been prompted solely for the sake of getting votes, just as some men are Democrats to get office. We want a man who is honest in his convictions, though they be different from ours.

As to Mr. Stanley, we regard him as an honest man. He is said to be a more temperate man than Mr. Beckham. He believes in temperance strongly. He voted against the Webb bill as Bro. Derthick states, and the Times censured him for so doing at the time. He said the law would not have the desired effect and every one knows it does not, because any man can get all the liquor from out of the State he wants, and that was what the Webb bill proposed to stop. Mr. Stanley has never failed to stand by the people against the trusts. He is not afraid of them, and is ready to fight them six days out of the week, and we believe that he would not represent the L. & N. railroad that helped to murder Gov. Beckham's dead comrade, for ten times \$800 per year, though his connection with Governor Goebel was not nearly so close as that of Mr. Beckham.

Our Bro. Derthick is taking the natural view of the situation, and the support of the whiskey men does not generally look good to us, but we are glad to see that there are a number of strong prohibition local papers fighting with their might and strength for the popular Congressman. They see him as we see him, and they see Mr. Beckham as we see him. They, like us, want a man who stands up for the people against the trusts and railroads, and who has the courage to vote for what he thinks is right, and generally proves to be right in the wind-up.

As to Governor McCreary, he is possibly by far the cleanest man of the trio, and we never failed to support him before. He is temperate in habits and never fails to support prohibition, and fight the trusts too. The fact that he is conceded to not be in the race is the reason why many are for either Stanley or Beckham.

## Garden Seed Gone.

The garden seed sent to this office for distribution by Congressman Cantrell are all gone, so you need not call expecting to plant your garden with Government seed this year. The editor is glad to have you call any way, even though the seed are all gone.

N. O. Walters, of Winchester, was here Tuesday.

## Wins Another Great Victory.

President Wilson won another great victory on the 31st of March last week, when the bill repealing the provision of free tolls for Coast-wise shipping through the Panama canal was passed in the House of Representatives by the overwhelming vote of 247 against 162. This measure has attracted more attention than any act of the administration except the Tariff and Currency bills. The remarkable feature about the affair is the fact that the Democratic platform on which President Wilson was elected declared in favor of "free toll" for our coast wise shipping, which is meant, shipping from port to port on the United States territory. President Wilson after careful study came to the conclusion that free tolls is an unwise policy and he did what was wise and statesmanlike in reversing himself when he found a mistake had been made. It is said that a fool never changes his mind but a wise man does, when there is a good reason for so doing. The Panama Canal cost us approximately \$400,000,000 which was paid for by the American people, and why should less than 1% who own the ships reap the benefit of free toll which the other 99% have paid for. The fact of it is every ship of commerce passing through that Canal should pay the same rate in toll, and that is the only just and equitable way to operate the Canal.

## Died in Lexington.

Algin Fortner, aged sixty-seven years, died at his home in Lexington, Sunday morning from Bright's disease and hardening of the arteries. Burial in the Lexington cemetery Monday. Deceased is survived by his wife who was Miss Margaret Hall, and three unmarried sons. Two of them are at home, while one of the sons is living in Cincinnati.

Mr. Fortner moved from this city to Lexington twenty years ago. He has many relatives and friends in Powell county who deeply regret his departure. His funeral was attended by Mr. and Mrs. J. M. Welch, Z. T. Hall, Thos. Conlee, and Mrs. Mayme Derickson, all of this county.

## Wants Youtsey Pardoned

Mrs. Kate Brown, of Frankfort, has started a movement to have Henry Youtsey pardoned. Her aim is to get 500,000 signatures to a petition asking Governor McCreary to give the murderer his freedom.

The Times opposes any such movement. There is but one lamentable fact about this affair, and that is that Caleb Powers, Jim Howard and others who aided and abetted him are not there with him as they should be. No sirree, let Mr. Youtsey stay where he is.

## Death of Mrs. Richardson.

Mrs. Pearson Richardson died at her home near Waltersville Sunday night. Burial near the Cottage Furnace where she, with her husband, formerly lived. The bereaved husband has the sympathy of a large number of friends who have learned to love both him and his estimable deceased wife.

W. T. Bunch, of Clark county, will be in this city, Saturday, Apr. 18th, with his fine saddle stallion, Marshall McDonald, 4120. All farmers interested in horse raising are invited to see this animal in action at Eaton's stable at 2 o'clock on this date. —Adv.

## McCreary Opens Campaign.

Governor McCreary opened his campaign at Winchester Monday and was greeted by hundreds of hearers. He was introduced by Attorney John M. Stevenson, and was presented with an armful of flowers by Miss Mary Crutcher upon the behalf of the United Daughters of the Confederacy. The Governor seems to be coming in on the ground where the other two scrapping Senatorial aspirants are looting. No one has anything against McCreary. His record is clean. They only say he is too old, and he has had office enough. A good man never had office too much, and as to his age, he is ten years younger than "Uncle" Joe Cannon, and the Democrats have run men for Vice-President 12 years older than he. His age is not hurting him, and men of particular conscience can support him without the least degree of temerity.

## A Popular Paper.

The Madisonian comes out this week in the most beautiful Easter effect. It is well filled with local advertising and high class seasonable reading. The Madisonian is a publication of which Richmond should feel justly proud. It is a typographical beauty, well filled each week with interesting news items and timely editorials, well written and soundly based upon firm principles.

W. A. Smethers, whose slight indisposition and nervous breakdown we mentioned last week, brought on by the excessive use of tobacco, has about recovered and has resumed his work at the Broadhead-Garrett mill as sawyer.

Sunday is Easter Sunday. Many persons have told us that there is no use of expecting Spring weather until after Easter, for it never comes only for a few days at a time. Well, we'll accept the prophecy, that Easter is so close at hand.

Mrs. B. H. Hoskins, of Miami, Texas, who is visiting relatives in this county, has gone to Beattyville for a short stay with Mrs. Grant Elkin who is a sister to her husband.

The L. & N. will put on through trains from Louisville to McRoberts May 1st. It will enable passengers to make the trip through either way in one day.

Mr. and Mrs. Edgar V. Bogan, of Franklin, Ky., are visiting Judge and Mrs. Luther Loving. Mrs. Bogan is a sister to Mrs. Loving.

F. B. Russell, of Louisville, and Chas. Scott, of Lexington, were in the city Tuesday in connection with the business of the bank.

The Ladies' Aid of the Methodist church, will meet Wednesday, April 15, at Mrs. Eaton's.

Miss Fannie Mize is visiting her aunt, Mrs. Nannie McKinney near Winchester.

Before buying your Spring hats, come in and get my prices. I have a nice line of Ladies', Misses', and Children's, latest style and up-to-date hats. Come in and see, whether you buy or not.

Nora Mays.

We are selling the new Royal Sewing Machine, prices from \$20.00 up. 10 year guaranty.

Mrs. J. W. Williams.

## STANTON NEWS.

Miss Nora West left Tuesday of this week for Clay City to visit.

Mr. Wm. Ledford, of Slade, made a business trip to our town this week.

Rev. J. C. Hanley made two trips to Lexington this past week on business.

J. H. Hardwick, of Winchester, and Robert Blackburn were here over Sunday.

Sherman Robbins, of Hatton Creek, made a trip to Lombard to see Alvin Hon this week.

Miss Helen Welch left Tuesday for Cincinnati to visit with her sister, Mrs. G. W. Ferguson.

Mr. John Williams and wife visited over Sunday with Mr. Williams' son, Henry Williams, in the Bluegrass.

Rev. Chas. G. Mann, of Clay City, is holding a revival meeting at Nada this week.

John (Hugley) Hardwick has gone to Mt. Sterling where he will work on the farm recently purchased by J. H. Hardwick.

Prof. Buck has so far recovered from his siege of typhoid fever as to be able to return to his home at College Corners, Ohio.

Dr. J. E. Lemming went to Winchester Monday to hear Governor McCreary make his opening speech for the race as Senator.

Green Spurtlock, of South Fork, Charlie Welch, John Sewell and Dr. Williams, of Clay City, made business trips to our town this week.

Mr. Mirrow of the firm of Hardwick and Company was called by telegram to his home at Birmingham, Alabama on business we suppose.

Major Blackburn has been quite sick with rheumatism the past few days and is not able to leave the house. He is some better at this writing.

Rev. W. W. Strickland left to preach on Hardwick's creek the last Sunday in March. He was seen in Clay City on Monday but no one has seen or heard of him since. He left his things at Doc Dehart's home.

Fiscal Court is in session this week. Most of the men were those recently elected and serving for the first time. Some minor claims were allowed. Hugh Johnson was allowed \$25 for waiting on small pox patients for \$27 days.

After a vacation Carl Holmes has resumed his carrying of the United States mail. We trust that Carl and Uncle Sam will get along first rate. Uncle Sam is very exacting but is a good employer and demands faithful service.

Mr. Algin Faulkner, formerly of Powell County, but of Lexington died in that city last Saturday and was buried there. Among those who attended the funeral from around here were Mr. and Mrs. J. M. Welch, and son Carl, Zack Hull and Mr. Morrow.

The Winchester Sun announces that a new and improved train service will be inaugurated over the Lexington and Eastern railroad, whereby a fast and through train will be put on between McRoberts and Louisville making it possible for passengers to leave Louisville and reach McRoberts the same day. This will be good news to a great many people.

Dr. I. W. Johnson took Miss Frances Kabele to Lexington last week where a consultation was held with Dr. Stucky, the ear specialist. No operation was necessary at this time and possi-

bly may not be necessary if especial care is taken in diet and exercise.

The following is taken from the Winchester Sun of April 4th. "A wife and five little children were all that saved Curt Kincaid, of Stanton, from serving a term of 60 days in the county jail. He was convicted Friday in Police Court on a charge of petit larceny, but his sentence was suspended on condition that he return home and care for his family, which is dependent on him. Kincaid, who is less than 30 years old, was charged with stealing a watch belonging to Mr. M. P. O'Mara from the Jones restaurant, corner Main and Washington streets. After the watch disappeared Kincaid was suspected and the police notified. Chief McCord went to the depot and watched for the man. He was caught with the goods on him. Kincaid had thrown away another watch, thinking that he had made good his theft of Mr. O'Mara's timepiece."

The Sunday School Convention just held at Irvine was a splendid one from a point of program and attendance. There were not so very many delegates from the counties in the District, there not being a single delegate from Lee county, but the people of Irvine turned out well. As is to be expected A. T. Stewart of our town made an impression on the people of Irvine in his speech. The people of Irvine think that they have a splendid teacher in Miss Bettie Boone, and many words of commendation were heard on all sides. She is held in very high esteem by the students and citizens. Miss Mary Lytle likes Irvine so well that it is doubtful if she will return to our little burg. Irvine is certainly on a big boom and building up fast. The convention for next year will be held in Stanton sometime in May. The writer was re-elected for the third time as President of the District, with Miss Rose Coldiron of Hazel Green as Secretary, also in her third year.

The writer cannot possibly understand why the editor of this paper supports Stanley in his race for the United States Senate. He has been one of the staunchest supporters of the liquor traffic ever since he has been a Senator. The whiskey men today are backing him solidly in his present race. The fight between him and Beckham is not one of politics for they both belong to the same party but it is a fight over the issue between liquor and Prohibition. Stanley voted against the Webb bill and wrote articles for the whiskey papers stating why he was opposed to the Webb bill. He is opposed to the National Prohibition bill that the temperance forces are trying to introduce for the amending of the Constitution, and has clearly demonstrated all along that he is against Prohibition. He is owned and controlled by the whiskey people, and is doing his best to defeat any legislation against whiskey. Mr. Stanley may have done one or two good things as a Senator against the Steel Trust, but the Steel Trust is of little consequence when compared to the liquor traffic of our country. The people are rising up in their might and power and are going to wipe out the liquor traffic, and we need the support of every Senator we can get. The writer is for Beckham, but should the editor not care to vote for him then there is Governor McCreary who is far more preferable than Mr. Stanley. The liquor traffic is the greatest issue before the people today and it must be settled right, and there is only one way that is right, and that is destroy it.

Insurance companies are forming in all parts of the State since so many of the big fire companies have withdrawn from the State. If the new law has bluffed the gigantic concerns from the State, and they will only stay away long enough for Kentucky concerns to form and write their own business, the new law will have served a double purpose, both of which will be beneficial to the State, one purpose being the lowering of rates, and the other that of organizing new companies to assume our own risks which will leave the business and its profits in our own State where it should always have been. May the foreign companies never return to Kentucky to reap the profits that Kentuckians themselves should have always had

On the first page of this issue will be found an article upon the treatise of apple trees to prevent wormy fruit. The only preventative of course is the spray, and now is the time to spray. Powell should be one of the best fruit counties in the State, but it can never grow high class marketable apples without the spray. It is time then that some of our enterprising farmers with a large orchard should introduce the spraying of fruit trees. We hope every reader of this paper will carefully study this article, and if they have an orchard of importance, let them determine to take the advice of the writer, and spray their trees that they may get more and better fruit.

The Regional Bank cities have been selected. Both Louisville and Cincinnati lose. Kentucky territory is divided. This part of the State is assigned to the Cleveland, Ohio territory, while the western portion of the State goes to St. Louis, Mo. We were first anxious for Louisville, then Cincinnati, and Cleveland last of all the proposed places. St. Louis would have been more convenient for this territory. The law is all right, if, as in our situation, it is a little inconvenient.

Some men are great and others just make a great noise.

A Republican paper to start a stir, put in glaring headline, "Four thousand thrown out of employment account the tariff." The four thousand laborers can find employment very easily by calling on the farmers of the country who never can find labor enough to properly handle their crops, and this will tend to help increase the production of food products that are now so scarce and high. This is one way of reducing the high cost of living.

A whole lot of people are as much concerned over the canal tools as if they owned ships.

#### To Prevent Wormy Apples.

The fruit crop for 1914 promises to be a very good one. The trees have passed the winter in good shape and unless a severe freeze occurs within the next few weeks the indications are that Kentucky will enjoy a banner fruit year. The interest in the production of better fruit has been very gratifying and many orchards that have been neglected for some time past have been pruned, sprayed and otherwise put in good condition.

The spray that has been applied up to the present time has been the dormant application for San Jose scale principally. Many growers who are just starting to care for their orchards feel that this application is sufficient. They should remember that this application is made more as a protection to the tree and not so much for the fruit itself. The application that is to show greater results from a fruit standpoint has yet to be made, and it is known as the codling moth spray.

The codling moth is the insect that causes the apples to become "wormy" and drop off prematurely. It is safe to say that over fifty per cent. of the apples raised in the State are infested with the larvae of this insect. The moth is grayish brown in appearance and usually flies at night. The female moth deposits her eggs on the calyx end of the fruit and on nearby leaves and branches about blossoming time. The eggs hatch in from five to ten days after they are laid. As soon as the worm hatches it crawls to the nearby apples and usually enters the open calyx or blossom end.

Advantage should be taken of the fact that the worm enters the open calyx of the apple and an attempt should be made to spray the trees just after the blossoms drop and before the calyx cup closes. If the spraying is delayed too long the calyx cup closes around the worm and it is impossible to reach it with poison. This spray should be directed down into the blossoms with as much force as possible.

Arsenate of lead and Paris

green are the principal poisons used in combating this insect. Of the two, arsenate of lead is preferable because it adheres better and because it is not so liable to burn the foliage. It should be used at the rate of three pounds of arsenate of lead to fifty gallons of water. Paris green should be used at the rate of five to eight ounces to fifty gallons of water. One gallon of lime-sulfur should be added to forty gallons of the spray because of its value in checking the different fungous diseases, such as black rot and apple scab.

In this section there are two broods of codling moth in a year. The second brood usually makes its appearance from the middle of July to the first of August. The same spray as given above may be applied. If bitter rot is troublesome, Bordeaux mixture should be substituted for the lime-sulfur.

These sprayings are very important from a fruit standpoint. Particular effort should be made to place some of the material in every calyx cup. It is not so necessary to try and spray every leaf, but the operation should aim to reach all of the fruit.

#### Where Was Beckham.

Mr. Stanley is already pressing Mr. Beckham hard. Stanley's dramatic question, "Where was Beckham when Bryan's Baltimore resolution denouncing the Morgan-Ryan-Belmont crowd was adopted?" is giving Mr. Beckham a world of trouble. Stanley, James and one or two others cast 3½ votes for it, and Mr. Beckham carried 22½ votes against it. His explanation is that he was opposed to such a summary proceeding. Bryan's resolution made Wilson President, and the Wilson Democrats will show how they stand by endorsing Stanley's vote.—Hopkinsville Kentuckian.

#### Depositors Safe.

The First National Bank of London, Kentucky, has been closed by order of the Comptroller of the Currency. There are \$307,000 deposited with the bank, but every dollar of this will be paid the depositors, and it is thought that the affairs of the bank can be so straightened out as to enable the bank to open up for business again in a few days. Uncle Sam certainly is looking after the safety of the depositors' money. That is why they are regarded with such safety.

## Farm Drain Tile

Make Your Wet Land Productive. By the use of drain tile you can turn that low, wet, useless, swampy field into the most productive spot on your farm. Good tile, properly placed, not only carries off surplus water, it admits air to the soil and makes it easy to work. It improves any soil. The increase in the value of the land is many times the cost of the tile. The first year's crop from tiled land pays for it. Any body can do the work successfully. Write for particulars or call at our plant.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.
